Felicia came to Mayfair's community audition, and she captivated all of us from the start with her great personality and attitude. Then, when she started to play her guitar and sing her beautiful, inspirational songs, we were all caught forever! Her voice is pristine, soulful, and powerful; her stage presence is intense, as you see her becoming part of her music, and the music becoming her, in one perfect connection with the audience, and the Universe. Felicia "is" a true gift! We unanimously voted for her, hired her, and will hire her again!
